# ATOM 80 MY '19 HANDY BOX

Dear Customer,  
thank you for purchasing our Atom 80 MY'19! We are so proud that you will fly with us and we want to thank you for the trust you have shown in us.

We have created this box, so you always have a small supply of spare parts to use for ordinary or extraordinary maintenance of the engine, with a ready-to-use kit that allows you to intervene for the small necessities.

All parts can be used partially or completely for the programmed revision of the 100 hours (see engine user manual).

We recommend that you always **ask for advice from your retailer for the use of each individual part of the box.**

Here you can find the list of all the components in the kit.

**WARNING:** The components highlighted in **red** absolutely **must be used by professionals** with specific skills. If not used by a professional, there is a risk of serious damage to the engine, and also to personal safety.  
If used without the supervision of a professional the guarantee on the engine is not valid.

To download the engine user manual,  
visit our website [www.vittorazi.com](http://www.vittorazi.com)

Remember to follow us on the web and on our social channels and to subscribe to our 'Official Group Vittorazi Motors' on Facebook to stay tuned on all the news of our world!
